kelteks Cargo System

mobile shelf
for a heavy
weight cargo

kelteks.com

standard rack for non-standard cargo

kelteks Cargo System is the solution based on our long-term industry experience. It is suitable for heavy loads and non-standard sizes because of its easily collapsible sidewalls. The heavy-duty construction of the container keeps fragile cargo protected and secured into position during transportation or when stored in warehouse.

2IN1 SOLUTION

pallet for easy transport, or stand-alone mobile shelf for storing goods

MAKES SPACE

enables stacking of 3 loaded pallets or 8 disassembled pallets on top of each other

FITS PERFECT

16 loaded (open) or 64 disassembled (folded) pallets fit into standard 13m truck

ISO STANDARDS

kelteks Cargo System is manufactured according to ISO 1090-1

EASY STACKING

3 loaded or 8 disassembled pallets can be stacked on top of each other.

MOBILE & MODULAR

Use it as a mobile shelf in your warehouse which doesn't have to be fixed to the wall/floor and is easy to manipulate.

EASY MANIPULATION

Double forklift pockets enable lifting the pallet from all 4 sides - you have an easy access to the pallet wherever you place it.

MAKES SPACE

3x more space in your warehouse by stacking loaded pallets on top of each other. Gives you the space to grow your business.

COLLAPSIBLE WALLS

The perfect solution for oversized loads and sensitive or fragile materials.

LOAD & SECURE

Security locks and strap holders for extra protection and more options to protect your cargo.

GSL SYSTEM

Our Guide Slide Lock system ensures easy manipulation and safe pallet stacking.

HIGH LOAD CAPACITY

Robust steel construction is suitable for heavy loads and ensures long service life.

TIME SAVING

Fast assembly / disassembly and manipulation.

SAVES RESOURCES

Zero waste of disposable and non-returnable wooden or plastic pallets

NON CORROSIVE

Galvanized steel construction for long service life.

HI-VIZ

Safety first! High visibility reflective labels and markers.

4-sided accessibility

Make your job easier, and do not worry about how you will maneuver your pallets because the **kelteks** Cargo System is accessible from all 4 sides. Highly efficient handling in production, storage and transportation. Compatible with all conventional/standard load carriers, forklift trucks and warehouse systems.

Stack up! 3 open or 8 closed

You are the owner of your space and you decide how you will use it! **kelteks** Cargo System will never take up extra space if your warehouse is empty. Just assemble it

and place it in your desired position to make room for things that are important to you, like a new machine maybe! Since it is galvanized the pallet will not mind if you leave it outside in the rain or snow.

TECHNICAL SPECIFICATION

- Net weight: **300kg**
- Max load: **2000kg**
- Max gross weight: **2300kg**
- Superimposed load: **6600kg**
- Height(open): **1240mm**
- Height(folded): **365mm**
- Length: **3350mm**
- Width: **1200mm**
- Cargo space: **4m²**
- Loading capacity: **3,2m³**
- Load fitting: **3 Euro pallets**

Optimize Your Supply Chain

LOAD MORE in the same space

About **kelteks**

Problem:

Do you still have street-shaped stacked shelves? Did you fix them to the floors or walls? Your forklifts can move freely, but you have lost a lot of storage space. Admit it, you made a problem for yourself..

Solution:

...but there is a solution! Mobile, flexible, and not fixed to floors and walls to fill and empty your warehouse instantly. Use the maximum capacity of your warehouse with **kelteks Cargo System**.

X Regular warehouse organization with standard warehouse alleys

Warehouse organized with **kelteks Cargo System** **✓**

+60% more free space
We pay for the whole space!
Why do we only use the floor?

X Regular warehouse organization

Your specialist for technical and functional textile development & manufacturing!

More than 30 years of experience in the composites industry as a manufacturer and developer of high-tech technical textile reinforcements for a large variety of applications. Our field of expertise is the large-scale production, with attention to every detail, of technical fibers such as carbon fibers, glass fibers, basalt fibers, etc., utilizing state of the art machinery and technology.

We are a family owned business and we are proud of the long experience of our 350 well trained, highly educated, and dedicated technical experts that ensure the best products and services for you. You can rely on us to be your partner for the complete value chain of your product so that you can focus on your own business. Our 3 factories are located in the heart of Europe in beautiful Croatia, from where we supply our industrial customers in more than 30 countries. It goes without saying that we are certified according to DIN EN ISO 9001:2015 and DIN EN ISO 14001:2015

Other Products

check out our NEW website for more products and innovative solutions

kelteks Edge Protector

is the NEW solution for the perfect corner reinforcement. Fluffy and cuddly fibers easily squeeze into sharp-edged joints and corners so stress-cracking and laminate chipping is effectively prevented.

kelteks FormMat

is an innovative three-layer complex with a middle layer of fleece intended for fast and even impregnation of laminate. High volume fabrics without chemical binders for better resin flow & final surface finish. A volumized complex is used as a specific solution for various applications.

kelteks UD Reinforcement

Unidirectional fabrics are a composite reinforcement designed for applications where high additional strength and reinforcement in only one direction is required. UD reinforcement offers the ability to place continuous fibers in optimum quantity, either a 0° (warp) or 90° (weft) axis.

kelteks Woven Roving

is most suitable for applications where thickness and strength are required and provides the most economical solution for improving straight and increasing the glass content of laminates. It is a reinforcement made from direct, assembled, or texturized fiberglass roving weaved into fabric.

kelteks Combimat

is the complex reinforcement made of woven roving and chopped strand fibers bonded together by stitching. Connecting the layers without chemicals dramatically improves the bonding between reinforcement and matrix during the lamination process.

kelteks Complex

is the combination of two or more reinforcement layers, connected by a special needling technology. Adding epoxy, vinyl ester, or polyester matrix, creates a perfect composite for a variety of applications such as shipbuilding, automotive, sports & leisure, and other industries.
